AT WORK ACCESSORIES FOR RUGGED KYOCERA DEVICES

Introducing a range of proven mobile accessories that can turn your DuraForce PRO 2 into a customized tool for your business needs.

DURA FORCE PRO 2

with SAPPHIRE SHIELD

by **KYOCERA**

DEVICE HIGHLIGHTS

- **Rugged, Waterproof and Drop Proof —** Certified IP68 dust and waterproof[1], and Military Standard 810G protections.
- **Two-year Standard Warranty —** Made with Japanese quality and precision, backed by a two-year standard manufacturer's warranty.
- **Stay Productive —** Glove and Wet Touchscreen Operation[2], enhanced Enterprise Grade Wi-Fi® for VoIP, Wi-Fi Calling, and is Android Enterprise Recommended.
- **Built for Push-to-Talk (PTT+)[3] services —** Dedicated oversized side button, loud dual front speakers, powerful battery, support for PTT accessories like headsets and Remote Speaker Mics.
- **Protection in Hazardous Locations: Non-incendive Class I, Division 2, Group A-D, T4 —** Certified for use in classified hazardous work environments where concentrations of flammable gases, vapors, or mists are not normally present in an explosive concentration (but may actually exist).
- **Sapphire Shield™ —** Second only to diamonds in mineral hardness, sapphire is virtually scratchproof and provides outstanding protection against impact damage.
- **Security —** Fingerprint security sensor on the phone's power button for biometric authentication and FIDO® app support allows simpler, stronger authentication for popular mPayment/mCommerce protocols.

Connectivity	Wi-Fi: 802.11 a/b/g/n/ac/r/k, 2.4 and 5GHz, Wi-Fi Calling Bluetooth®: Bluetooth (5.0 + LE/EDR), Bluetooth Smart Ready
Memory	64GB ROM/4GB RAM microSDXC memory card slot (supports up to 512GB)
SIM Type	Nano/4FF
Operating Temperature	-4° F to 140° F (-20° C to 60° C)

AUDIO   CARRY SOLUTIONS   CHARGING   DISPLAY   SCANNERS   SPECIALTY   VEHICLE MOUNTING   REPLACEMENT PARTS

1   Certified waterproof for up to 6.5 feet (2 meters) for 30 minutes. Before immersing your phone in water, make sure all ports and covers are properly seated, with no foreign objects obstructing the seals, to maintain the waterproof capability. The phone should never be used under water with a broken or open SIM/microSD slot cover (located under battery cover). If your phone gets wet:
   • Water in the phone's open microphone and speaker ports may affect outbound audio quality and speaker performance. These are temporary conditions and will subside once the phone is dry.
   • Dry your phone with a clean cloth before charging.
2   Recognizes touch input while wearing gloves up to 3mm thick; the material, texture and thickness of the glove as well as how it fits your hand will impact performance. Individual results may vary.
3   Additional fees may apply.
4   Talk and standby performance may vary based on user settings, feature use, and network.

Business Accessory	Category	Model Number	Picture	Description
Audio/Headset: 1-Wire Surveillance Kit (5 Pole) jack	AUDIO	10867		**Milicom** ○ Surveillance acoustic tube style ○ Design combines 2-in-1 call & PTT capabilities for maximum productivity and effectiveness **www.milicomheadsets.com**
